INSTRUCTIONS TO AUTHORS

Author(s) are requested to please carefully read all the instructions before submitting a manuscript to the Journal of Management and Social Sciences (JMSS). Manuscripts not prepared as per below mentioned specifications may be returned to the author(s) and may experience significant delays in review and time to publication.

MANUSCRIPT SUBMISSION

Three hard copies of manuscripts of articles, comments, notes or book-reviews, should be submitted to

The Editor
Journal of Management and Social Sciences
Institute of Business and Technology (BIZTEK)
Main Ibrahim Hydri Road, Korangi Creek
Karachi-75190 Pakistan

One soft copy of the manuscript should also be received at drmuhammadali@bizteklan.com, dr.riaz@bizteklan.com, naveedriaz@bizteklan.com Manuscripts should be prepared in US English using a word processing (preferably in MS Word) program and saved as a.doc or rtf files, or pdf files.

MANUSCRIPT SPECIFICATIONS

Abstract: All manuscripts should contain a well-summarized abstract of 100 to 200 words. This should be a separate file on the soft copy and a separate page on the hard copy. The abstract should be related to the hypothesis and information being presented, as well as the conclusions and results of general interest.

Title Page: This includes the title of the article, complete name(s) of author(s), active email(s) and institutional affiliation(s) respectively. Acknowledgements or any other special note (if given) should also be on this page.

General Format and Style: Manuscripts should be formed in double space, with 1.25-inch margins on all sides on A4 size page. The text as well as footnotes should be written in Times New Roman font of size 12 point. Do not use multiple columns. If you are using special characters or symbols, not available in Microsoft Word, or Adobe Acrobat then please attach the true type font(s) files. The soft copy must exactly match the hard copy.

Tables and Figures: Figures, tables and boxes should be numbered consecutively in Arabic numeral, (e.g. Figure 1, Figure 2, and Table 1, Table 2, etc.). Do not draw colourful customized figures and graphs. Please avoid inserting figures and tables in the main text. Instead, in the space immediately after the paragraph in which the figure or table is first referenced, insert a text tag as: [Figure 1 here].

Soft copy of figures/graphs and tables should be accompanied with the soft copy of the manuscript in Microsoft Excel or any other compatible format, in files separate from the text file(s).

Data and Programming Routines: Data used in the article should be separately provided along with the soft copy in any standard spreadsheet format. If the manuscript is supported by any econometric computations or mathematical estimation then name the software with version and send the relevant estimation file and/or program routines.

Footnotes: All footnotes should be numbered in Arabic numeral, corresponding to numbers in the text, and placed at the bottom of the page rather than end of the manuscript.

Reference List and Citations: Authors are requested to follow the Chicago Style of Manual for referring and citation. List references alphabetically by the author(s) last name and then by the year. Please refer name of all the authors for collective work and avoid using et al. in lieu of authors’ names. Do not use abbreviated name of journals and institutions. Clearly mention the web site(s) address(s) for the article, paper or report that is neither published nor accepted for publication.
Our readers will find valuable contribution from foreign as well as Pakistani scholars enjoying enviable reputation in their fields. We are confident that the readers will find that the diversity of topics in the current issue is manifest expanding field of our Faculty's academic.

Dr. Zareen Abbassi and Dr. Muhammad Bux Burdey in their article,"The Changing Paradigms of Human Resource in the Economic Development of Pakistan" think that globalization is creating significant face up to business in the world and the thought of HRM is to build up the attentive involvement of by people in dealings. HRM has undergone bizarre changes. Currently, the consistent change in the upbringing of HRM is mandatory in organizations. HRM is not only helpful to facilitate the business but also going to get lead over its rivals.

They say that Pakistan has a labor surplus economy. Pakistan is confronted with a high population rate, low literacy level and poor skill and technological base. It has resulted in critical imbalances in the development of HR. In Pakistan, because of the state monopoly, the requisite HR is not available. Pakistan has been facing strict macroeconomic inconsistency, declining financial growth, increasing deficiency and alarming human insufficiency.

The future of HR in Pakistan is incredible because it is going to be important in the knowledge-based economy. It will provide a role of the talented HR professionals who can improve the financial position through technically experienced people. The main field is skill development as technical jobs are in the textile industry, banking sector, hospital management, police administration and they need skilled and proficient training to enhance their skills and knowledge.

Summing up they have enumerated various points which required consideration and made some suggestion for improvement in training programs. This could be done through seminars, workshops or even sending employees abroad to get international exposure in their relevant fields.

Mr. CHU, Candy Lim in his article captioned "3 R's of Used Car Recovery in Philippine's Approach" says that automobile industry faces a dynamic and challenging environment. Innovation is one of the key factors for recovery market creation. Over the past decade, there has been an increasing interest in product take-back, product recovery and the re-distribution of these products.

In the opinion of the author, there has been an increasing demand for recycled parts such as used parts, rebuilt parts in repairing a vehicle, etc. In terms of recycling, 3 R's product recovery in developing countries, like the Philippine, represents, perhaps, the largest untaunted resource for product innovation improvement. 3 R's (reconditioning, repositioning and remanufacturing), by contrast to other form of recycling, is the ultimate form of recycling. It conserves not only the raw material content but also much of the value-added content during the processes required to manufacture new products. 3 R's may seen as 'less glamorous' than the distribution of new cars and may even result in negative brand image.

An increase in the re-use of products is important from an environmental point of view. So, entrepreneurs in the developing countries are turning to 3 R's recovery system that involve buying used/junk cars from developed countries like Japan, and disassembling them at a small plant, followed by the application of the 3 R's by the reuse or recycling of components in an environmentally sound manner.

Mr. Himanshu Tandon, in his article, captioned "B2C Offerings in India: A Critical Review" says that developments in IT related fields have pushed India into the forefront of international business debates in the last one and half decade. The ICT developments have also meant that Indian market has been witnessing tremendous innovation in terms of offerings; the B2C sector has been the one to experience most activity.

Accordingly to him Internet penetration is extremely low in India; still a total of around 40 million users make it a sizeable market for study. And with mobile phone usage growing, the Indian market is set to break into a substantial market for B2C offerings, many of which have been examined herein.

The author has critically discussed the status of B2C offerings in India. The idea is to elucidate the origins of such offerings; and juxtapose them with key ground variables in order to properly evaluate their economic and consumer worth. The paper draws on researcher's interviews with key middle and senior level executives in Indian businesses as well as Industry groups and lawyers to properly cover these issues.

Dr. Muhammad Ali Siddiqui, in his article, on "Allama Iqbal: A Critic of Capitalism & Globalization" has discussed the immoral role of Capitalism. He says that Allama Iqbal was against the exploitative tendency of capitalism. He would like to trace the development of corporate capitalism in order to see what Allama Iqbal had to comment on this cancerous development. Globalization means shutting out...
possibilities of economic growth for the third world. It has been creating virtual fences to shut our people of schools, hospitals, workplace, farms even homes of communities. Mass privatization and deregulation have bred armies of locked-out people, whose services are no longer needed. These fences of social exclusion can discard an entire industry, and they can write off an entire country "as happened in Argentina", some time ago and now being reversed by new coalition government headed by Chavas.

Dr Siddiqui wonders what else Allama Iqbal could say, if he were alive today, except that he could not countenance with this upsurge of degradation of human life because the world's most developed economies and capitalist system don't believe in sharing the fruits of their progress- rather they are ensuring that the present quantum of world resources 20:80 to be further squeezed to the ratio of 10:90 in favor of the developed world.

Dr. Muhammad Riza Kazmi's article "The Founders View" throws light on the vision of the founder of Pakistan. It was a vision which didn't have any place for theocracy in Pakistan which fundamentalists are finding it difficult to accept.

Dr. Farooq Aziz in his article captioned "Is Muzara's (Share cropping) Lawful from Qur'anic Perspective?" says that Muzara's is basically a form of partnership for cultivation of land, between landlord and agricultural labour. It may take different forms depends upon the terms and conditions set by leaders of Islamic jurisprudence. From the very beginning in Islamic economic literature, its validity is a controversial issue.

In his paper discussion in this regard is clearly divided in two schools of thoughts, one which has recognized it and the other which considers it as unlawful. The axis of reasoning in this regard is almost based on the concept of Traditions, form which both schools got the material for their claim.

Concluding the author says that Qur'an recognized the institution of private ownership. But this right is conditional and limited to those items which are the result of human labours and are involved in land, hence its private ownership is not possible. Arguments which are given in this regard are based on deception. Qur'an has openly recognized the agricultural labour as the owner of agricultural production. Hence there is not any concept of landlord, and the absence of landlord means complete collapse of concept of Muzara's.

This is an article by Ms. Sanzida Akhter on "Millennium Development Goal on Maternal Health in Bangladesh: progress and prospects". He says that improving maternal health with the target of reducing maternal mortality by three quarters between 1990 and 2015 is one of the Millennium Development Goals.

Bangladesh, as a signatory to the Millennium Declaration 2000 (People's Forum on MDG, 2005) has committed herself to improving the status of maternal health along with striving to achieve other development goals of eradicating extreme poverty and hunger, achieving universal primary education, promoting gender equality and empowering women, reducing child mortality, combating HIV/AIDS, malaria and other diseases, ensuring environmental sustainability and developing a global partnership for development Bangladesh has a very high MMR of 320 per 100,000 live births. More than half of the pregnant women do not have access to necessary health care and 20 % of the total deaths of women aged 15 to 49 are caused by complications related to childbirth. The scenario of maternal health status is not similar in all the six administrative regions in Bangladesh.

The main objective of his study is to provide an assessment of the feasibility of achieving the Millennium Development Goal on improving maternal health in Bangladesh (known as Millennium Development Goal Five or MDG Five). The study concludes that there exists a considerable gap between the current and required rates of progress towards achieving the targets. The existence of such a gap poses a question about the feasibility of reaching MDG Five targets on time. The study has also identified notable variations among the six administrative regions of Bangladesh in terms of the rates of progress towards the targets.
Journal of Management and Social Sciences (JMSS) is an emerging name in Pakistan. JMSS offers a range of services to non-profit organizations and research-based institutions to promote their products for academic and educational activities. Take advantage of the targeted opportunities available to reach your market.

Academic and non-profit research-based goods and services include:

- Books
- Research Journals
- Academic Magazines
- Government Publications
- Reports
- Case Studies
- Statistical Publications
- Research Supporting Software
- Surveying Computing and Forecasting Services

JMSS currently taking orders for:

- Back Cover
- Inside Back Cover
- Full Page (end of Journal)
- Half Page (end of Journal)

Pre Admission
- The candidates must have a master degree (or at least minimum 6 years post matriculation studies in relevant field).
- Candidates must clear a test on international GRE pattern.
- Candidates who have passed HEC’s PhD entry test are also eligible.

Pre Enrolment
- Approval of the proposal and its submission to BIZTEK BASR (Board of Advanced Studies and Research).
- Successful completion of compulsory coursework program, spanning one year (three quarters).
- Presentation of the proposal in seminar or workshop.

Pre Qualification Research
- Publication of two research articles in international journal of relevant field which must have cumulative impact factor not less than 4.
- Approval of the dissertation by two international referees.
- Presentation and defense of the dissertation in a closed room viva-voce examination.

Call for Papers

Journal of Information and Communication Technology JICT

This vast world has shrunk into a small village. The Global Village! All barriers have been broken down. Worldwide accessibility has become as simple as talking to your neighbor. Doing business across the world is as simple as logging on your computer. The Internet Technology is not just for games, chatting and occasional research anymore, now it is an essential part of everyday life of every one. A business cannot flourish without becoming a global enterprise and becoming active part of the Global Village. Information and Communication Technology is the vehicle providing the access to the Global Village.

The technology is changing very rapidly because of the advanced features of ICT, AI, Telecommunication, e-commerce, IS, Robotics, Cyber Security, Data Mining, Network Storage Technologies, Software and Hardware Technologies. Now a days the technology becomes obsolete in 12 to 18 months, thus it is imperative for us to keep ourselves updated on the latest developments in ICT or become obsolete and be left out into oblivion. Today the user and the student of ICT must be willing to learn constantly to keep abreast with the technology growth.

JICT is an international Journal of Information and Communication Technology, published by BIZTEK on bi-annual basis. We welcome the submission of articles from researchers, academicians and practitioners in the area of ICT. For instruction to submission of manuscripts, please see the title flap. The papers should be of moderate length for the sake of greater diversity. Please note that submissions should be original contributions and will go through a rigorous evaluation process.

JICT does not charge any fee for submitting, reviewing and/or posting manuscripts before or after acceptance of the article.

SUBSCRIPTION RATES

The Journal of Management and Social Sciences (JMSS) is published bi-annually (Spring and Autumn) under the aegis of the Institute of Business and Technology (BIZTEK)-a non-profit academic institute, recognized by Higher Education Commission (Govt. of Pakistan) and legislated by Sindh Assembly through Act-II of 2004. It aims to disseminate knowledge and brings forth the culture of research.

For the sake of said purpose, the JMSS is considerably subsidized not only for Pakistani subscribers but also for the nationals of LDCs (least developed countries). LDCs include economies annually listed by the World Bank in World Development Indicators (WDI).

Role of Chartered Fund Manager

Professionals under this category will serve the corporate sector to maximize the shareholders’ wealth or (academically speaking “Value of the Firm”) subject to social responsibility and good governance of the corporate sector. They will be responsible to work as an independent agent of all the stakeholders. On contrary to traditional role of Accountant – Preparation of financial statement by completing accounting cycle and writing the financial history and evaluation under the Generally Accepted Accounting Principles (GAAP) – the Fund Manager will be responsible to maximize the wealth of companies by decision making.

Role of Chartered Finance Manager

Professionals in this category will learn the application of sophisticated techniques to forecast the markets’ scenarios, quantification of risk, portfolio management, technical analysis, exploring the market opportunities, developing the linkages between the fair value of the securities, government fiscal and monetary policies, major economic events and the financial statements of the companies. They must have thorough knowledge and background of the relevant laws and regulations regarding the Non-Banking Finance Companies, Money Market Operation, Securities and Exchange Rules, Assets Management Companies Ordinance and the Investment Advisory Companies Regulations etc.
